

Phan Van Dai

Java Developer Intern

 Portfolio  0916044262  Thu Duc, Ho Chi Minh  vandaihk17@gmail.com  /PhanVanDiej

OBJECTIVE

I aim to be proficient in programming in the backend with Spring and NodeJS, WebSocket communication, and front-end development with React. I also focused on deploying software products using CI/CD, Docker and Kubernetes too. Currently, I hope that I can join a dynamic company, where I will continuously learning and adopting new and cutting-edge technologies to enhance my skill set and become an official team member.

EDUCATION

University of Information and Technology - VNUHCM
Software Engineer

Ho Chi Minh City, Vietnam
Expected 2026

- **Specialization:** Web and App Development **GPA: 3.2/4**

TECHNICAL SKILLS

- Languages: **Java, JavaScript, C/C++, HTML/CSS, Kotlin**
- Databases: **MySQL, FireBase, Spaces (DigitalOcean), MinIO, Redis**
- Frameworks and Tools: **SpringBoot, Android SDK, React, Vite, Ant Design**
- Version Control and Project Management: **Git, Trello**
- DevOps: **Ubuntu Server, Docker, nginx, systemd, SSH, VPS** (DigitalOcean).

CERTIFICATIONS

- Toeic Listening & Reading : **780**
- Toeic Speaking & Writing: **250**

EXPERIENCE

Globee - Salesforce & D2C Commerce
Salesforce Developer Intern

07/2025 – 10/2025

Ho Chi Minh City, Vietnam

- Supported configuration and development for **D2C Commerce** platform — setting up record pages with **Dynamic Forms, Highlights Panel**, and mobile optimization.
- Built internal project **Commerce Store Website**: configured data models, user roles, product import, price lists, and tax calculation.
- Explored **AI features** including Prompt Builder and Work Summary to enhance operational productivity.
- Collaborated on **Git-based workflow**, change sets, QA checklist, and handover documentation (setup guide, release notes, demo scripts).

PROJECTS

VocaLearn – Online English Vocabulary Platform

04/2025 – 06/2025

- Built a web app for vocabulary learning with flashcards, pronunciation, and TOEIC mock tests.
- Developed **Spring Boot REST APIs** with JWT authentication, **MySQL, DigitalOcean Spaces** and **MinIO** for media. Cache data with Redis.
- Designed UI with **React + Ant Design**, deployed via **Nginx, Docker**, and **systemd** on Ubuntu VPS.
- **GitHub:** github.com/PhanVanDiej/BE-VocaLearn-website
